

Dynamic Software developer with more than 1 Year of experience specializing in JavaScript, Tailwind, React.js and Next.js, Skilled in designing responsive and visually appealing applications that improve user experiences. Committed to staying updated with industry trends and delivering high-quality code, ready to apply these skills to future projects

SKILLS

Language - JavaScript, C++, Java, HTML/CSS

Tools and technologies - React.js, Next.js, Git, Node.js, Express.js, Tailwindcss, Oracle BPM, VBCS, OIC, PCS

WORK EXPERIENCE

Software Engineer

Americana Restaurants

Aug 2024 - Present

Mohali, Punjab

- Trained in Oracle VBCS, PCS, OIC and BPM to develop business solution.
- Gained experience in integrating systems using Oracle Cloud Service.
- Collaborated on low-code app design with cross-functional teams.
- Assisted in delivering user-centric solutions using Oracle technologies.

Software Development Engineer

APIxLABS

Aug 2023 - July 2024

Pune, Maharashtra

- Engaged in front-end development using React.js and Next.js to craft dynamic and responsive user interfaces.
- Worked with Postman to test and ensure the smooth integration of backend APIs into the front end.
- Implemented and styled user interfaces with the use of Tailwind CSS, ensuring a visually appealing Design
- Contributed to the development of efficient and optimized code to enhance overall user experience.

React JS Intern

Celebal technologies

Jun 2023 - Aug 2024

Jaipur, Rajasthan

- Developed and maintained web applications.
- Enhanced coding skills through collaboration with seniors, focusing on optimal code for better performance.
- Participated in bug detection and tracking using Postman for seamless integration and bug-free user experience

PROJECTS

Movie AI

Technologies - React.js, Redux-toolkit, Tailwindcss, Firebase, TMDB API, Gemini API

- Built a dynamic movie website using React.js and Tailwind CSS, featuring diverse genres and detailed movie pages .
- Implemented user authentication and Utilized Redux for state management allowing seamless user experience.
- Integrated AI search functionality with Gemini API for efficient movie discovery by title or genre
- Added multi-language support, offering an inclusive user experience in English, Hindi, and Spanish

YouTube Backend

Technologies - Express.js, Node.js, MongoDB, Postman

- Developed a YouTube backend project with Express.js, Node.js, MongoDB, and Postman for testing.
- Focused on efficient data handling and seamless API integration.
- Ensured robust performance and scalability for large-scale video content management

Disney+Hotstar Clone

Technologies - React.js, Bootstrap, Firebase

- Developed a movie website, featuring a user-friendly interface, extensive film database, and personalized profiles.
- Demonstrated UI/UX design skills, creating an engaging and intuitive user experience.
- Combined passion for cinema with technical expertise to build a dynamic platform for movie enthusiast

EDUCATION

Master of Computer Application, Lovely Professional University

CGPA - 8.5

2022 - 2024

Bachelor of Computer Application, GGS Indraprastha university

CGPA - 9.01

2019 - 2022

CBSE X, CBSE

CGPA - 9.8

2016 - 2017
